

HOW TO VIEW QRS IMAGES FROM USB DRIVE

1. Flip tab and plug in USB drive (ensure chip side is in correctly)

5. Double click on "StartInteleViewerCD"

Nar	me
	StartInteleViewerCD.app
4	mfc90.dll
	Microsoft.VC90.CRT.manifest
	Microsoft.VC90.MFC.manifest
4	msvcp90.dll
4	msvcr90.dll
6	StartInteleViewerCD
	Viewer
	ViewerMacNative

6. This should bring up the following screen, double click on the patient to view images

inages			
Dicom Dir			
1 Studies			
Location	Patient Name	Patient Birth Date \triangledown	Patie
2	TEST, VISAGE MR		10.202

7. Most studies should load within 30 seconds, however studies with a lot of images (eg. CT, MRI Brain) may take up to 2 minutes to load
